500 HUNTERS ON MOUNTAIN

From Mont Alto to Pine Grove Furnace the Mountain is Dotted with the Camps of the Hunters. Not Many Deer Shot.

Reports from the various hunting camps for deer located in various sections of the South Mountain ranges in Adams and Cumberland counties, and stretching from a point near Dillsburg westward to the State Forestry Reservation at Mont Alto, give the number of men in camp at about five hundred.

The Bendersville Hunting Club, located not far from Pine Grove Furnace, Wednesday afternoon shot an eight-pronged buck, which weighed about 200 pounds. It is said to be one of the largest killed in this vicinity for some years.

A number of hunters from Harrisburg ran down a deer weighing about 100 pounds and succeeded in getting it. On Wednesday afternoon the Lone Mountain Hunting Club, shot a fine buck weighing about 180 pounds.

Good hunting grounds are in the vicinity of Laurel, Hunters' Run, Henry Clay and Pine Grove Furnace, and these sections abound with fertile land, plenty of watering places where deer can easily conceal themselves. By real count there are exactly fifteen hunting clubs in the vicinity of Laurel.

The number of deer shot up to this time is unusually small, especially in view of the fact that the animals are said to be very plentiful this year.

JUDGE BITTINGER

SCORES LAWYERS

Wednesday morning marked the close of the York County common pleas court fixed for this week and the result was the trial of one \$27 damage case, although over 30 had been placed on the list.

Easy-going and procrastinating methods of some lawyers was ascribed as the cause of the collapse of the trial list.

Judge Bittenger criticized the practice of lawyers for not having their cases ready for trial at any day of the week. "The result is," he said, "that the earlier terms of common pleas court in the fall of the year are idle a greater part of the time, while the later courts in February and March are always crowded and all parties are in a rush to get cases tried, and the courts are not able then to dispose of them."

Another week of jury trials will begin next Monday and it will be interesting to watch the fate of the 30 or more cases that are on the list and are now said to be ready for trial.

POSTMASTER GETS ANOTHER RULING

Department at Washington Issues New Ruling Regarding Return of Mail when Party for whom it is Intended Cannot be Found.

An order dealing in a general way with the problem of undelivered letters has been received by Postmaster Beales from Postmaster General Hitchcock. He is advised that he should not advertise a prepaid letter bearing the sender's name and address on the outside but send it back to the writer if uncalled for at the postoffice of delivery.

Whenever these letters bearing the senders' names and addresses are directed to street and number in cities or to general delivery or for delivery by rural carriers, they shall be returned to senders within five days, but uncalled for letters in postoffices of the fourth class and not intended for delivery by rural carriers will be returned in 15 days without additional charge.

The postal laws and regulations of 1902 were amended as follows by the provisions of the act of congress, approved June 24, 1910:

Section 670. When the writer of any letter on which the postage is prepaid shall indorse on the outside thereof his name and address, such letter shall not be advertised, but, after remaining uncalled for at the office to which it is directed the time the writer may direct, or the postmaster general prescribe, shall be returned to the writer for postage, and if not delivered shall be treated as a dead letter.

Section 672. Whenever any unclaimed matter of the first class other than postal cards and post cards bears the name and address of the sender, as postoffice box, number and street, etc., without a request that the same be returned if not delivered, such matter will be termed "Card matter," and must not be advertised, but must be returned to the sender within the time prescribed by the following paragraphs:

(a) Uncalled for letters directed to street and number in cities, five days.

(b) Uncalled for letters for general delivery in cities, five days.

(c) Uncalled for letters for delivery by rural carrier, five days.

(d) Uncalled for letters in offices of the fourth class and not intended for delivery by rural carrier, fifteen days.

All requests, card, or official matter of any class returned to the sender must bear on its face the reason for such return, such as "Refused," "Returned," "Present address unknown," "Deceased," "Unclaimed," "Can not be found," "Address incomplete," etc., and must also in every instance be indorsed "Returned to writer" and bear the postmark of the office from which it is returned.

A WESTERN PLAY

If wild animal training is not an actual "calling" it has many of the elements of irresistibility often attributed to vocations of educational, didactical or philanthropic natures. Last year when Mr. Toole, now playing the part of Daniel Boone was terribly mangled in an attack by the wolf Bob carried by the company, he said he would probably return to the company as soon as he was able. Though warned by the doctors at the hospital, Mr. Toole insisted on returning to his company less than ten days after he had been torn by the "raw" wolf Bob. On last Monday night he fainted after having successfully performed with his pack of wolves. Again entering the cage Wednesday Mr. Toole made a desperate effort to "break" the wolf which tore him, but his weak condition began to tell on him before he had finished, and it was only the quick work of the other members of the company prevented him being torn the second time. These wolves will be seen with "Daniel Boone on the Trail" at the Walter Theatre next Tuesday, November 22.

THE PRESIDENT TO VISIT CUBA

Will Inspect Naval Station at
Guantanamo.

PANAMAS LAUD MR. TAFT

Showed Great Friendliness When He
Declared United States Will Not
Annex Republic.

Panama, Nov. 18.—President Taft sailed on the cruiser Tennessee for Charleston. He will stop at Guantanamo, Cuba, tomorrow afternoon to inspect the naval base there.

On the way home the president will dictate his message. The president has received no general news from the United States and is anxious to get in touch again with affairs at Washington.

Mr. Taft looked over the Pacific division of the canal, and from a tug examined the completed section. This is the president's fifth visit to the isthmus, and his popularity among the canal workers is everywhere manifested.

Just to show him special honor the men turned in and broke all division records for laying of concrete at Gatun dam, making a total for the day of 4975 cubic yards.

The president made a speech at a dinner given in his honor by President Arosemena, of Panama, in which he ridiculed the report that the United States was contemplating the annexation of Panama.

This was published, and excited the earnest appreciation of the people, who seized upon every opportunity to show their friendliness toward Mr. Taft and the American government.

In his speech he said:

"The treaty between the two countries makes the United States the guarantors of the integrity of the Panama republic, and therefore, in a sense, the guardian of the liberties of her people, secured by its constitution. Our responsibility, therefore, for your government requires us closely to observe the course of conduct by those selected as the officials of your government after they are selected, and to insist that they be selected according to law.

Won't Annex Panama.

"All this makes us especially interested in what is done in your government, but this relation neither calls for nor permits annexation.

"We do not wish any further responsibility in respect to your government than is necessary in the carrying out of our purpose to construct and maintain this canal. We have no desire to add to the territory under our jurisdiction, except as the operation of the canal may require it.

"We have guaranteed your integrity as a republic, and for us to annex territory would be to violate that guarantee, and nothing would justify it on our part so long as Panama performed her part under the treaty.

"I wish to make this statement as emphatic as possible, because irresponsible persons, without the slightest foundation in fact, have started a rumor that my visit to the isthmus is for the purpose promoting annexation, when nothing could be further from the truth.

"Panama cannot be too prosperous, too healthy, too strong a government for the United States, and I know I speak the unanimous voice of the people of the United States when I say that they would be most reluctant to have to take over the responsibilities of government beyond the canal zone, and would feel utterly dishonored in so doing unless there was some conduct on the part of the Panamanian people which left them no other possible course.

"I am glad to say that there is not the slightest indication or probability that the Panamanian people will ever pursue a policy which would require such a change in the present most satisfactory relations between the two republics."

The naval station at Guantanamo, Cuba, where President Taft will stop on his way home from the Isthmus of Panama is United States soil, although in Cuba. It was ceded to the United States at the close of the war with Spain for use as a naval station, and plans are being made to make it one of the greatest in the world.

Thus President Taft will not be leaving United States territory by this visit. His going into the city of Panama, however, was a departure from the usual custom that a president should remain in territory over which flies the American flag. This was the second time President Taft departed from this custom, the first being a year ago, when he crossed the Texas border into Mexico to greet President Diaz.

CANADIAN PARLIAMENT

Earl Grey Favors Tariff Agreement
With United States.

Ottawa, Ont., Nov. 18.—The third session of the eleventh parliament of Canada was opened with much ceremony by Earl Grey, the governor general. King George's personal representative, who was driven to the parliament buildings and escorted by draughts.

The speech from the throne, after referring to the death of King Edward, referred to the great growth of prosperity in Canada, the acquisition of the Niobe and Rainbow for the new navy, the decision of The Hague tribunal in the fisheries case, the progress of the construction of the national transcontinental railway, and the proposed construction of the Hudson Bay railway. In conclusion, the speech referred to the reciprocity question as follows:

"The desirability of more equitable tariff arrangements between the United States and Canada has long been felt on this side of the border. The commercial policy of the republic has not hitherto favored imports from Canada. We have bought largely from the United States, but they have bought less from us in return.

"It is gratifying to find that a more liberal policy is now favored by the neighboring country, and that the government at Washington express a desire to establish better trade relations with the dominion. Following the negotiations which took place some months ago between the president of the United States and my government, the results of which were communicated to parliament at the time, a further conference between representatives of the two countries has been held at Ottawa. While no conclusions have been reached, and no formal proposals adopted, the free discussion of the subject that has taken place encourages my government to hope that at an early day, without any sacrifice of Canada's interests, an arrangement may be made which will admit many of the products of the dominion into the United States on satisfactory terms."

ADMITS HE KILLED WOMAN; BEAT ANOTHER

Farm Hand Confesses Murder
and Robbery When Caught.

Reading, Pa., Nov. 18.—Frank Mitchell, a foreigner employed by Peter Faulds, farmer near Auburn, Schuylkill county, was arrested here and confessed to Magistrate Mast that he had killed Mrs. Mary A. Richards, had beaten her daughter, Mrs. Faulds, and had robbed his employer of money during the latter's absence in Pottsville.

Faulds, returning home, found his house locked. Summoning a farm hand, they broke into the cellar and found the dead body of Mrs. Faulds' mother, Mrs. Richards, lying on the cellar floor, shot through the heart. On the kitchen floor was the badly battered form of Mrs. Faulds, unconscious. Upstairs they found the drawers all ransacked and a roll of bills containing \$38 missing.

Mrs. Faulds remained unconscious all night, and is so dazed that she is unable to give any information of the killing. It was presumed that she detected Mitchell in the act of rifling the drawers and was set upon and beaten and then tied to the bed. Mitchell, going down stairs, shot Mrs. Richards when he was accosted by her. Mrs. Faulds succeeded in freeing herself and made her way to the kitchen, where she dropped over unconscious. Her condition is critical.

The suspicions aroused against Mitchell are borne out by his confession to Magistrate Mast.

He declares that he encountered Mrs. Faulds in her home and bound her hands and feet. Mrs. Richards, he says, then appeared on the scene and he promptly shot her with a shotgun. Covering her body with a blanket, he maltreated Mrs. Faulds, robbed the house and made his way to this city. He was taken back to Pottsville.

JOHNSTONE KILLED IN FLIGHT

Daring Aviator Meets Death at Denver.

AIRSHIP TURNED TURTLE

He Fell 800 Feet While Attempting a Spectacular Dip, and Every Bone in His Body Was Broken.

Denver, Col., Nov. 18.—Ralph Johnstone was killed by a drop of 800 feet in his runaway biplane at Overland Park. He tried to remove his helmet after he struck the earth, gave a few short gasps and expired. Nearly every bone in his body was broken.

From the time he lost control of the machine until it struck the earth it turned three complete somersaults, and it is a question whether something broke or whether the machine was broken by the strain of these evolutions before it struck the ground. When the crowd saw the machine whirling downward there was a scattering, and the space on which it fell was clear of people until the crash.

Then there was a rush to the spot where Johnstone's crushed and bloody body lay. Police were the first at his side and lifted the motor which bore him down. Then the crowd was driven back and a canvas stretcher secured to remove the body. Forced backward by the officers, the crowd next rushed to where the lighter parts of the machine lay in a tangled heap thirty feet away, and before the police could prevent it the framework and everything had been broken or torn to bits and carried away by souvenir fiends.

Did Magnificent Work.

Johnstone had been doing magnificent work in the air for two days, and previous to the accident had soared away from the park and taken a turn over Fort Logan, several miles distant, while Hoxsey and Brooks were manoeuvring over the park. When the crowd saw him returning at an altitude of about 800 feet there was a great cheer. As he gracefully dipped his machine in response he was again cheered, and he then began making a spiral descent to the starting ground in the park, and then it was noticed that his machine wobbled several times. Suddenly the aeroplane swerved, darted toward the ground and after turning three somersaults struck the earth with terrific force.

During the descent Johnstone could be seen clutching the levers about his seat, while the frightened spectators wondered if by some chance he couldn't right his machine and save himself from death.

When the aeroplane struck the spectators rushed from the grand stand and paddock and literally mobbed one another trying to ascertain the fate of the daring airman.

His corpse was a harrowing sight. Both legs, his neck and back were broken and the bones of his thighs were forced through the flesh and through his heavy leather garments.

POISON HOSPITAL PATIENTS

Two Die in Wilmington Institution From Mistake in Medicine.

Wilmington, Del., Nov. 18.—It developed that two deaths occurred at Delaware hospital from a mistake in medicines. A bottle used for epsom salts had been sent to the drug room to be filled and the man in charge, by mistake, filled the bottle with bi chloride of mercury, and it was sent back to the ward. The fatal drug was given to five patients.

Patrick Jordan, a rigger, suffering from injuries received by falling from a roof, soon died. William Rainey, an old man who was dying from meningitis, also succumbed. The other three rallied to treatment, and are now out of danger. Coroner Gaynor will make a formal investigation.

SHIVELY RESTING

Indiana Senator Still in Hospital in Chicago.

South Bend, Ind., Nov. 18.—It was learned here that Senator B. F. Shively left South Bend a week ago, and that he is now in the Michael Reese hospital in Chicago.

Reports received by Mrs. Shively are to the effect that the senator is making a rapid recovery from his recent operation, which was performed in Epworth hospital, this city. Dr. C. A. Daugherty, physician to the Shively family, said that the senator was in the Michael Reese hospital simply to secure needed rest.

FORGER JAILED BY EX-WIFE

He Gets Five Years on Her Affidavit.

WAS ARRESTED MANY TIMES

Member of Old Pennsylvania Family

Adjudged an Habitual Criminal in New York—Next Offense Means Life Sentence.

New York, Nov. 18.—Lee P. Woodward, forty-nine years old, a college graduate and a member of an old and honored Pennsylvania family, was sentenced to five years at Sing Sing and adjudged an habitual criminal by Judge Malone.

It was an affidavit from Woodward's divorced wife that caused the judge to give the prisoner the limit for his offense.

Last February, Woodward, who was then living at Columbus, N. Y., passed a bad check for \$59 drawn on the Fifth Avenue bank, upon a Broadway clothing firm. He pleaded guilty, hoping to escape heavy punishment, but the judge looked up his record and found that it couldn't be a blacker one.

In 1900 he was sentenced to six months' imprisonment; in 1901 he was sent up for two years from Philadelphia, and in 1903 he was sentenced to two years at Sing Sing for a forgery committed here.

Was in Constant Trouble.

But what impressed the judge most was a sworn statement from Mrs. Carrie Woodward, the man's former wife, who said that during their married life Woodward was in constant trouble. He was arrested many times, she said, but managed for a long time to escape punishment. He squandered \$20,000 which she had inherited from her father, John R. Catlin, chief engineer of the Philadelphia fire department, and also swindled her brother out of \$10,000 of his inheritance. While a clerk in the registry department of the Philadelphia water works Woodward made a practice of stealing small sums of money from taxpayers.

"In my belief," she added, "he is beyond redemption. Nothing can induce him to lead an honest life. Our son, now twenty-one years old, joins me in appealing to you to inflict upon him such punishment as will in your wisdom relieve us and society from the menace of his presence. Our only daughter, who died at sixteen, told me on her deathbed that her father's conduct had broken her heart and filled her life with shame, and that she didn't care whether she lived or died."

Woodward, a stout, florid, rather handsome man, heard his sentence without show of emotion. The judge warned him that under the habitual criminal acts if he should ever be arrested again in this state for any crime he would be summarily sent to prison for life.

"NOT A WORD," SAYS T. R.

Colonel Repeats It When Effort is Made to Quiz Him on Election.

New York, Nov. 18.—"Not a word—not a word," said Colonel Theodore Roosevelt in answer to a question as to what he thought of the recent election.

He returned to his magazine labors for the first time since November 8, and gave the first opportunity for newspapermen to quiz him.

"They are saying you can't come back," ventured a reporter.

"Not a word," said the colonel as he bounded out of his automobile, which brought him in from Oyster Bay, and hurried into the offices of the Outlook.

Colonel Roosevelt was good natured in his absolute refusal to discuss the result of the election.

"You are looking pretty well," some one suggested.

"And feeling just as well as I look," was the colonel's response.

WOMEN ESCHEW PLUMES

2,000 Have Taken Pledge Not to Wear Birds or Feathers on Hats.

Baltimore, Md., Nov. 18.—The National Woman's Christian Temperance Union is steadily gaining recruits in its campaign against wearing birds in their plumage in hats. This was reported by the mercy department at the session of the annual convention.

Since the last convention nearly two thousand women have taken the pledge not to adorn their headgear with birds or their plumage. Cruelty to animals and vivisection also were denounced.

In her report on "Physical Education," Mrs. Frances Waite Leiter, of Ohio, urged a national campaign against the "white plague." She recommended a systematic campaign of education, especially among the school children. She asserted only half of the cities in this country were enforcing the health laws properly.

The Famous Rayo

Is the Lamp of Real Beauty

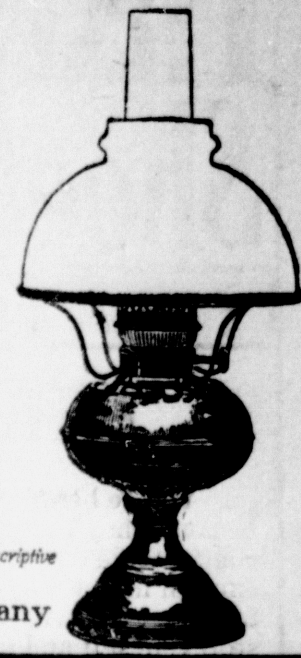

because it gives the best light of all lamps. The Rayo gives a white, soft, mellow, diffused light—easy on the eye because it cannot flicker. You can use your eyes as long as you wish under the Rayo light without strain.

The Rayo Lamp is low-priced, and even though you pay \$5, \$10 or \$20 for other lamps, you may get more expensive decorations but you cannot get a better light than the low-priced Rayo gives. A strong, durable shade-holder holds the shade on firm and true. This season's new burner adds strength and appearance.
